INTRODUCING THE SIZE 6° TOHO® DEMI ROUND

Use TOHO® Demi Rounds™ and an inventive tubular herringbone stitch variation to create a textural rope reminiscent of Byzantine chain.

ABOUT THE ARTIST: KIMIE SUTO

Bead Stitch Designer Using Needle and Thread to Knit; Proud Member of JSBA

As a child, Kimie visited a neighborhood handicraft shop after school almost every day to enjoy drawing and making something with the shop owners. In 2002, she became a certified instructor of Japanese-style beading skills by having completed the curriculum designed by the Japan Association of Leisure and Cultural Development, which is a foundation authorized by the Ministry of Education, Culture, Sports, Science, and Technology. She has won several awards and been featured in many beading publications. Currently, she teaches more than 100 students per month.

INSTRUCTIONS

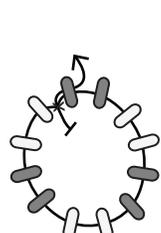

Note: You may use 2mm rounds, in place of the 3mm rounds, with size 6° TOHO Demi Rounds. Also, try this pattern with size 8° TOHO Demi Rounds and size 8° or 11° TOHO seed beads. Use consistent tension throughout. Pull the thread after each stitch to set the beads in place.

1. On 2yd of thread, add 2A, 2B; repeat twice, leaving a 7" tail. Form a ring and tie a knot against the tail, leaving a little bit of space between beads. Pass through the first A.
 2. Add 2B and pass through the next A, then skip over the next 2B of Step 1 and pass through the next A; repeat twice. Pass through the first B added in this step. Pull on the tail and working threads and manipulate the beadwork so that the beads stack and begin to form a tube.
 3. Add 1C and pass through the next B of the previous step, then add 2A and pass up through the following B of the previous step; repeat twice. Pass through the first C added in this step, skip over the nearest B of the previous step, and pass through the first A added in this step.
 4. Add 2B, pass through the next 2A of the previous step; repeat twice. Pass through the first B added in this step. Note: Make sure the B, C, B of the two previous steps remain on the outside edge of the rope when you work this step.
- Repeat Steps 3 and 4 until you reach the desired length. Repeat Step 3 again.
5. Note: A flat side view of the ends is shown for illustration clarity. Making sure the rope isn't twisted, pass through the first B of a 2B pair of Step 1. Add 1C; pass through the next B of Step 1 and the next 2B of the final Step 3 repeat. Repeat this step twice. Tie off.
